- The Lone Star.—

  A voyager on life's stormy sea,
  Whose guiding star was woman's leve,
  Met all its temporate tranquilly;
  For to his ark, like Noah's dove,
  Isoung beauty from the world without,
  Brought hope and pence, and naught could mar
  lis rapturs—born of love devout—

  While shone, undimmed, his guiding star.
  But death his cold seruichral hand
  Placed 'twint the voyager and the light;
  lis dove had joined the an el bard—
  The world below graw dark as night.
  Yet, though the ligh he loved were mute,
  One biss remained—death could not mar—
  In the Daguerroutype of Moot
  He saw his loved, lost guiding star.

country, at such an early period of existence as a corr plete work The promises for autumn business are also unusually flattering, and it is highly probable that the ratio of gain above exhibited will continue. The exuberant crops of the great West and Canada pour immense quantities of flour and wheat over this line, and the route is also a favorite for shipment of goods from New York and Boston to the Western and Canadian Lake ports. The following arrivals of freight at Ogdensburg in the first three days of September, will give some idea of the extent of the business, at a period when new crops have hardly commenced coming in, viz :-16,964 bbls of flour; 58 610 bush, of corn and wheat; 1,017 bbls, and

packages of miscellaneous freight.

The earnings of the Southern Michigan and Northern Indiana Railroad Company, during the month of August, amounted to \$92,337 86, of which \$64,422 79 was for passengers and mails, and \$27,915 07 for freight. This is, we believe, largely in excess of the estimate. This road was opened its entire length about the first of June last since which the monthly earnings have been as annexed :

Assuming this quarter to be a fair average for the year, the gross earnings for the year will be about one million of dellars. Allowing 40 per cent for expenses, and the account would stand about as follows:— 

Interest on \$2,350,600 debt..... Nett revenue..... \$407,500 This is equal to a dividend of sixteen per cent for the ear on the capital stock of two millions five hundred housand dollars. In view of such flattering returns, the

but, on the contrary, has a wide margia for further improvement. We annex an official statement of the tolls collected on all the New York State canals, in the fourth week in August, and up to the 31st of August, from the resump tion of navigation, in each of the past two years :-
